Who are we?

aDvens is a leading independent European cybersecurity company. Since its creation in 2000, the company's name – “aDvens”, meaning “Together and ahead” – has been its motto.

Our mission is to protect public and private organizations from cyber threats – 24/7. The company employs over 600 people and has offices in France, Germany, Spain, Italy, Canada and Tahiti. aDvens offers Managed Detection & Response Services (SOC-as-a-Service) and selected consulting services in the areas of cyber-security and OT security.

Our mission is to safeguard your industrial continuity by building the cyber defense your business requires. We achieve this through a battle-tested approach: from comprehensive vulnerability assessments and strategic roadmap to custom OT security architectures and 24/7 monitoring - mitigating each potential risk with a robust defense mechanism.

What's in for you?

Looking for a cybersecurity service provider who understands the unique DNA of your OT environment while crafting precise, threat-proportionate defenses that make sense for your operations?
With our OT offering, aDvens is providing exactly this. Our services are dedicated to one mission: plan, protect, anticipate, detect and react as fast as possible to defend you against a continuously evolving threat landscape.

Deep OT cybersecurity expertise paired with industrial know-how, enabling seamless interactions between teams and bringing cybersecurity right to the heart of OT operations.

Comprehensive knowledge of regulatory frameworks (NIS 2, Cyber Resilience Act,…) and industry standards (IEC 62443, NIST SP 800-82,…) to streamline compliance.

Extensive track record of audits, assessments, and red team operations across diverse industrial settings: manufacturing plants, transport systems, power stations, water utilities, healthcare facilities, and more.

Advanced detection and response capabilities through mySOC, our MDR service for IT and OT.

Unmatched threat intelligence powered by our CERT's CTI.
Strategic technology partnerships to address every use case.

Our OT Cybersecurity Offering

There is no one size fits all in cybersecurity. With our modular service portfolio we are able to tailor our service offering to address your needs and objectives.

Audit and Cartography of your ICS
(Assessment, Audit, Inventory, OT an IoT system mapping)

Define your OT Cybersecurity Strategy
(Roadmap, Risk analysis, Industrial security policy, Supplier security assessment)

Enhance your Organizational Resilience
(Awareness training, Business continuity/disaster recovery, Crisis management exercises)

Secure and Harden your OT Architectures
(Penetration testing, Architecture hardening, Network segmentation, Backup management)

mySOC for OT
(OT Security Operations Center, NDR/EDR deployment, Log collection, Vulnerability watch)

Our clients:

Air Liquide · ALSTOM · ANDROS · Bonduelle · DANONE ONE PLANET. ONE HEALTH · fives · Herta · KERING · LVMH · orano · PARIS · PUIG · SAFRAN AEROSPACE · DEFENCE · SECURITY · SAVENCIA FROMAGE & DAIRY · TotalEnergies
