**A 360° approach to design,
build and operate your security.**

Advens offers specialized services in Consulting, Architecture & Integration, and Offensive Security aimed at providing advanced, comprehensive cybersecurity solutions for both IT and OT environments.

The group “Advens for cyber, people & planet” is a European cybersecurity specialist that aims to contribute to addressing the cyber, environmental, and social challenges of our time.

Our solutions.

360°
cybersecurity
catalog

For whom?

- Organizations with **regulatory requirements** (e.g. NIS 2, DORA, KRITIS) or **companies looking to remediate their cyber-risk or cyber-threats as part of their business model** (e.g. Hidden Champions).
- Examples of aDvens Customers:**
 - L'Occitane. Doctolib. Decathlon. Axa. Savencia. Andros. Danone.
 - Cities and municipalities (e.g. City of Paris). Hospitals and medical centers. Public sector (Health, Culture)...

What makes us different?

- Full-Service Integration**
Advens offers a **holistic approach** - covering everything from **initial consulting and assessment** through to **architecture design, integration, offensive security and mySOC**.
- Focus on emerging topics**
Advens goes beyond IT networks and specializes in **OT (Operational Technology)** security, as well as Cloud Security and Kubernetes Security.
- Data Sovereignty & Flexibility**
Advens prioritizes **data sovereignty** and ensures that clients maintain full control over their data and infrastructure.
